

Blockchain Representative offices platform

We are creating a universal investment inter-blockchain infrastructure of technological and economic properties, combining blockchain projects and projects of the real sector.

Solves the problem of integrating existing and new businesses in blockchain space & creates a system of mutual trust.

We are introducing new concepts into the blockchain sphere.

BR – Blockchain Representation

ViP – Virtual image Part

IVO - Initial ViP Offering

Global Multifunctional Decentralized Platform BILLCRYPT pl — this is an **Integration System Blockchain Representative offices** of companies, professional communities, specialists and products in the form of DApp (decentralized applications on the blockchain) with a friendly and comfortable interface. The next step in the development of new generation Internet technology Web 3.0

United comfortable environment will allow partners to most effectively develop their businesses included in the system and economically promote each other, reaping multiple benefits from this due to the synergy effect.

For investors, this will be the most understandable and illustrative structure that allows using the **ViP** to quickly and reliably assess the businesses represented, and make profitable investment decisions.

ITO BILLCRYPT

For the effective functioning of the entire potential of the platform and the investment ecosystem, a universal digital asset of a new generation has been created - the **Evolutionary Token** BILLCRYPT ERC-20 standard on the Ethereum blockchain. Exchange symbol BILC

Brand new, modern, high-tech and highly profitable way to invest.

Key benefits

At the same time, a digital asset of value storage, a privileged club card, which opens access to the project functions, and a kind of ticket to enter the closed pre-sales of the system's projects, and an internal digital currency for which you can purchase new crypto assets in the form of tokens & ViP of other projects. Each such token & ViP, in turn, also gives significant privileges to the holders and users, and increases their welfare.

- Indefinite privileged membership on the BILLCRYPT pl.
- Payment instrument for purchasing a part of virtual images (Virtual image Part - ViP, which are derived reflections of real objects).
- Growing dynamics and financial flows.

www.billcrypt.io

Economy of token

One-time emission 152 000 000 BILC

Limited number of tokens

Deflationary financial model
